## MRS. KENT OUT AS SECRETARY OF WELFAREERS

League Decides Paid Worker Is Not Warranted as Secretary Quits.

## WILL DISTRIBUTE FUNDS

Attempt to Be Made to Do Manifold Uplift Work Thru Amateur Effort.

Mrs. N. B. Kent, secretary of the Welfare league, has resigned. Her resignation takes effect April 1.

Secretary Kent's resignation comes at the close of a campaign for funds carried on by an executive committee in which Mrs. L. Aubrey was active as a paid worker. At a closed meeting held within the week it was decided that the finances of the association were not in shape to provide for a paid secretary and tentative plans were discussed to have certain of the committee attempt to carry on the secretary's work from their homes. It is presumed the \$2,800 pledged in the campaign will be distributed as it is collected, among the organizations associated with the Welfare league.

When the campaign for funds began a special room was provided for Mrs. Aubrey and her assistants on the second floor of the Chamber of Commerce. Secretary Kent occupied offices on the first floor. During the campaign Mrs. Aubrey removed her headquarters to the Y. M. C. A. building. A resolution was passed requiring Secretary Kent to devote all of her time during the campaign to the campaign committee.

Among the duties of the paid secretary were the handling of the community gardens, the finding of employment for destitute people, locating needy girls in homes, the rehabilitating of homes wrecked through drink, the superintending of the work of the district nurse, the securing and distribution of food, clothing and bedding.

## COTTON ON SQUARE IN WACO TUESDAY

DRAWN FROM HIDING PLACE WHEN NEWS TELLS OF NEW ORLEANS INCREASE.

Before 9 o'clock yesterday morning cotton began to show up on the public square, drawn from its hiding place by the ascending prices, news of which came to the News yesterday from New Orleans.

As much as twenty bales could be seen at one time yesterday, belonging to several different persons. Before 10 o'clock some cotton had sold as high as 15 1/4 cents a pound. Not much of the staple is left in the hands of farmers, but there was a disposition yesterday to turn loose on the part of some of the farmers who still had a few bales.

A few cotton dealers, in Central Texas still have a good deal of cotton on hand, but some of these will hold for at least 20 cents, some even more, in an effort to get back the money they have put into it.

Waco cotton men are interested in the cotton report from the Washington government, given out yesterday. This shows the 1916 cotton crop amounted to 11,442,838 bales of 500 pounds each, exclusive of linters. Texas led the list of all states in raising cotton, the three leaders being: Texas 3,724,731 bales, Georgia 1,819,874, Arkansas 1,133,568.

He is delightfully located, and his friends are calling on him in the new business home where he will practice law in company with his son.

## Anne Visits Home of Good Shepherd Says "All Babies Look Alike" Is Not True

By Anne Austin. If you know any ladies who want any babies, just send them around to me."

"I have never had any patience with the man—or was it woman—who first uttered that bromide, 'All babies look alike.' I wish he or she could have gone out with the Home of the Good Shepherd with me on my visit there last week. A bright little red-head was the champion, the acknowledged leader, for his was the glory of three months of life. Next to him squirmed a brand-new twelve-pound boy, whose mother smiled at me from her bed as I went in. A little cotton-head next to the new one strayed to maintain his rights of supremacy by jabbing a red little fist into the new arrival's eyes. Quite contented with her lot in life was a tiny little doll of a baby girl, the cunningest little thing I have ever seen. Her cheeks were as fresh and soft and sweet as rose petals, and her serene blue eyes looked out on a world just one week old for her. Tiny little curls of black hair outlined a face of almost unearthly beauty. I know I have never seen a prettier baby.

And Then the Mother. I was enraptured. I am afraid I made myself ridiculous. With the baby in my arms I haunted through the rooms until I found her mother, just as pretty as her baby girl, except that her eyes were not serene. They were red around the rims from crying over the possibility of my wanting to adopt the baby. And yet that was her great hope, she said.

If I knew that some GOOD lady who would be kind to her would take her, it wouldn't be so hard. But you know the ones that take babies like ours make us promise never to see them again. I want to see how pretty she will be when she gets a little bigger. Everybody says she is the prettiest baby the home has ever had."

I have a desire that I have cher-

Le Temps says: "Governing in order to win is the task of the new ministry. And the task will be realized on condition that the word governing is given its widest and most complete meaning. M. Ribot has the wisdom to examine thoroughly into the duties to be fulfilled and to attach much importance to ideas than to proper names. That is a good method."

"M. Ribot's rapid formation of the cabinet under present circumstances is of first merit," says the *Journal Des Debats*, "and its only thought should be the salvation of the country."

La Presse comments in a similar tone.

The *Intransigent*, declaring that it is unfair to criticize the cabinet before it has had a chance to act nevertheless regards it as hybrid combination.

## WAR RISK WILL BE GIVEN SHIPS BY GOVERNMENT

By Associated Press. Washington, March 20.—The government war risk insurance bureau which heretofore has insured only non-contraband announced today that it would "broaden the scope of its operations" and hereafter insure practically forms of contraband for European countries except arms and ammunition.

Cases Was Sensational. David D. Overton was arrested September 25 last at Smithville, Tenn., charged with the killing of Judge W. T. Lawler in Huntsville, June 17, 1916, after a search had been made for him in every state in the south and parts of Canada. He was convicted last November and sentenced to death. An appeal was made to the supreme court and this appeal was pending when he made his escape. The finding of the body of Lawler in the Tennessee river near Whitesburg ferry, on the morning of June 17, 1916, was followed by the suicide in the next week of Shelby Pleasant, a Huntsville attorney, and Robert Phillips, sheriff of Madison county, who, it is alleged, killed themselves because they believed they were suspected in connection with the Lawler killing. Because of threats of lynching two companies of the state militia were sent to Huntsville at the time of the killing and remained on duty there for a week.

## Norwegian Ships Good Mark for Kaiser's Subs

By Associated Press. Christiania, via London, March 20.—It is probable that the neutrality markings of Norwegian vessels will soon be removed. Agitation for their removal is being conducted by the ship owners and seamen's organizations, as it

that the whole united weight of America can lay out must be concentrated upon effective governmental action."

Theodore Roosevelt insistently urged action. He charged Germany with murder and asserted that the United States was hiding at present in safety behind an English fleet.

"War is going on now," he said. "Germany is making war upon us and we are not striking in self defense. Armed neutrality under these circumstances is war. It is feeble war, but it is war. All we can do is to decide whether we are going to hit soft or not. If we hit soft we can simply immeasurably increase German's contempt for us."

"For the last two and half years we have seen the American pacifist meandering around. To try to curry favor with the German militarists, the American pacifist, the professional pacifist, has been the tool and the subordinate ally of the pro-German in this country."

"We do not have this port blockaded only because the British fleet keeps the enemy at home. It is a shameful thing for us to be content to owe our safety to the fleet of another power when we are all the time insisting that we are neutral between the power that is protecting us and the power that is making war upon us. It is a shameful thing."

"If we go to war, for heaven's sake let us make it real war. We are bound when we fight to strike hard and effectively. We want to prepare at once a great army; I should hope of a couple of million men, so that if the war lasts for a year we will be able to be the decisive and controlling element in it."

"But do not wait for the great army. We can send an expeditionary force abroad now to fight in the trenches or fight in the Balkan peninsula, wherever it is desired. We can get that expeditionary force, if we choose to, within four or five months into the trenches."

## COURT SCANDAL IS EVIDENCE OF CZAR'S SURPRISE AT FATE

REPEATEDLY REFUSED TO BELIEVE STORIES BROUGHT TO HIM OF REVOLUTION.

By Associated Press.

Petrograd, March 20.—It would be unprofitable to go fully into all the court scandals or the constantly accumulating evidence by which it seems to be clearly establish the weak character and incredible lack of foresight of Nicholas II. and his apparent ignorance of conditions that spelled his inevitable downfall. Most surprising of all was the emperor's refusal to be guided by the council of members of his own family and his quiet assumption that all was well with the country at a time when the whole nation was on the brink of active revolution.

Grand Duke Nicholas Michaelovich made most persistent efforts to apprise Emperor Nicholas that the country was in danger and the throne tottering, but the emperor showed no more signs of being stirred by this warning than by that of the dowager empress and a multitude of other personages who approached him.

Late in November Grand Duke Nicholas took to the palace a letter he had written and read it aloud to the emperor and empress. It expressed in blunt fashion the danger the country was in and showed that only by the promptest action the emperor could save the empire from complete collapse. The grand duke took no pains to conceal the Rasputin scandal but when the name of the empress was mentioned the latter snatched the letter and tore it up.

When the emperor received in silence the state ment that Protopopoff (minister of the interior) had been foisted upon him by Rasputin and listened to the other accusations without denying or showing signs of being the least confused by them, the grand duke lost all patience and shouted at his majesty:

"Do none of these things move you? You make me think of Alexander I."

An appeal to the emperor signed by seventeen grand dukes made no greater impression and Vladimir Purishkevich, vice president of the Union of True Russians and a prominent member of the duma, paid a fruitless visit to the palace on the same mission. All spoke freely to Nicholas of the growing danger to the dynasty and the necessity of his protecting himself against the influence of the empress. To all of these the emperor replied:

"What has Alexandra to do with politics? I refuse to believe that she is unpopular among the people."

**U. S. TO RECOGNIZE.**  
Washington, March 20.—Early recognition by the United States of the new government in Russia was forecast here today in the belief that with good order now prevailing the plans being made for a permanent constitutional government call for the moral support of this country. All reports to the state department indicate that the army and navy are supporting the provisional government.

**DOWAGER EMPRESS PLEASED.**  
Petrograd, March 20.—(Via London.)

The former dowager empress, Marie Feodorovna, who was at Kiev, went to meet her son, former Emperor Nicholas, as he was returning after his abdication. She had long resented the influence over Nicholas wielded by the empress Alexandra, Gregory, Rasputin, the mystic monk, and Mlle. Birubava, lady in waiting to the empress, and Alexandra's best friend, who had introduced Rasputin to the empress.

**GERMANS SEE DANGER**  
Amsterdam, March 20.—The Berlin Lokal Anzeiger, a copy of which has been received here, says that if the Russian revolution has resulted in a decisive victory over Russia's absolutism, it means the disappearance of an important element of weakness in the Russo-French alliance and makes for the stability of the entente, as the war aims of the democratic western powers could not in the long run be the same as the aims of Russia's absolutism.

**TREAT WITH U. S.**  
Petrograd, March 20.—(Via London.)

Nothing now stands in the way of a commercial treaty between Russia and the United States said the new foreign minister, Prof. Paul Milukoff, in an exclusive interview that he gave to the Associated Press today.

"In think I am right in saying that the United States is eager for the resumption of old commercial relations and for the removal of all the disabilities governing Jews here. There now appears to be no obstacle to such an event."

**CAVALRY CAPTAIN SUICIDES.**  
London, March 21.—A Reuter dispatch from Petrograd says a cavalry captain tried on Tuesday to gain access to the new minister of justice, A. P. Kerensky on the pretext that he had a letter to deliver. The attendants' suspicions were aroused, the man searched and instead of a letter a loaded revolver was found. The revolver was taken from him, whereupon he snatched it back and committed suicide.

"Indeed," she said, sweetly, "but, then, they are people that know you." —Tit-Bits.

## Some Foodstuffs Show Advance in Berlin Now

By Associated Press.

Berlin, March 19.—(By wireless to Sayville, March 20)—Somewhat lower prices for certain cereals and generally decreased prices for meats have been fixed by the German federal council in a new list just issued, the Overseas News Agency announced today.

## LIBERALS IN CUBA SEEK AMERICAN INTERVENTION NOW

INSISTENT PROPAGANDA IS BEING SET ON FOOT TO ACCOMPLISH THIS END.

By Associated Press.

Santiago, Cuba, March 15.—Liberals formerly high in government rank have begun an insistent propaganda for American intervention.

Scrupulous care has been exercised by Captain Belknap, commanding the American forces ashore here and at other points along the coast both on the north and south sides of the island, not to give the Cubans the idea that the United States government is interfering in their affairs.

On every side the local authorities have been assured that the Americans are doing nothing more than affording protection and that the conduct of all civil affairs remains with the Cuban people. Cuban police have continued their duties as usual, courts have continued functioning and American naval officers have been punctilious in all their dealings with Cuban officials not to appear to be exceeding their authority. In return they have been the recipients of appeals to induce the American government to authorize a more extended occupation of the island and supervision of elections.

**Thousands in Arms.**

The liberals who joined in the revolt against what they regarded a deliberate attempt to intimidate them at the presidential elections yet have in the presidential elections yet have in the several thousand men, perhaps 8000 or 9000 and possibly more, but there is no one command that comprises more than 2000 or 3000. The government forces crowded them back until now the only organized units of which the liberals here know are in the provinces of Camaguey and Oriente.

Possessed of money and ammunition and numbers of men, the government forces had made it apparent even to the liberal leaders that for the present it was useless to continue an organized movement and the orders for guerrilla warfare have been sent out by Gen. Rigoberto Fernandez, commander-in-chief.

General Fernandez assured his followers that the desired American intervention was almost at hand and that if delayed he would authorize such a warfare—he intimated American colonists would be killed—that would force Washington to act. In Santiago, where there remained liberals who had not entirely joined the revolution, arguments for intervention were made by them to Consul Griffith, to American naval officers and to any other American who would listen.

No attempt was made to conceal their desires. The conversations took place in hotels, in the streets, in cafes and clubs and regardless of those who might overhear them. Foreigners with interests in Cuba loudly insisted upon intervention as the only solution, but what afforded Americans officially ordered here the greatest surprise was the seconding of the liberals' plea by well known Cubans of the conservative party.

The arguments offered were based on a widespread conviction that any ascendancy the government forces might gain now would be only temporary.

**DAMAGE IS ENORMOUS.**

The net result of the rebellion has been the destruction of hundreds of thousands of dollars' worth of railroad property and the loss, direct and indirect, of perhaps millions of dollars caused by the operations of rebels in the cane fields district, several skirmishes in which the loss of life was slight and the danger that the unprepared liberal army would inaugurate a state of anarchy. It is this possibility that has stimulated the propaganda for intervention.

It has been pointed out that President Menocal even though he succeeds in conquering all the rebellious territory and running down all the

The following recipe shows how an appetizing, wholesome cake can be made without expensive ingredients.

In many other recipes the number of eggs may be reduced one-half or more by using an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

It is hard for any man to admit that  
the fellow who does not agree with  
him is broad-minded.

**A CHANCE FOR THE CHAMBER OF  
COMMERCE TO ACCOMPLISH A  
WORTH WHILE IDEAL.**

**W**ITH the collapse of the Waco Welfare League as far as the employment of a secretary is concerned The News believes this is the proper time for the Chamber of Commerce seriously to consider the uplift needs of Waco. The central idea of the Welfare League was to act as a clearing house for various organizations seeking to improve the quality of Waco citizenship. Some of these organizations are the Evangelical Settlement, the Humane Society, Travelers' Aid, District Nurse and the Working Boys' Club.

Outside of such organization work which The News does not believe can properly be co-ordinated without the aid of a permanent office with a permanent secretary, permanently located in the downtown section, a salaried worker appears absolutely necessary to take care of the scores of miscellaneous cases of wrecked homes and individual unfortunates whose uplift requires a long period of constant care and advice.

**T**HE NEWS believes in its present state the Welfare League will occupy the field of the idea without accomplishing the work. The News believes further a Welfare bureau of the Chamber of Commerce would accomplish the financial stability and efficiency of effort that the idea demands. Under such auspices the generous minded citizens of Waco would be able to give annual contributions to take the place of the miscellaneous sums now spent in charitable effort of more or less doubtful nature.

The News believe the idea sufficiently important to make it a special order of business at the next meeting of the Chamber of Commerce directors. A small, but broad-minded, non-sectarian committee, of proven business men should be chosen to superintend the work of such a bureau.

**W**ITH the distribution of the \$2,800 collected and pledged in the recent Welfare League campaign among the affiliated organizations, these organizations should temporarily be placed on a firm financial basis. The important need remaining is that a person of tact, experience and understanding be employed, backed by a broad-minded committee, who will undertake twelve months in the year the work of human rehabilitation as fast as needy cases occur.

**P**ERMANENT help towards self-support and self-respect is rapidly taking the place of the giving and receiving of alms under the name of charity. Repeated doses of material help without intelligent effort toward individual and family regeneration merely makes for permanent pauperism.

All intelligent business men will agree with the central idea of the co-ordination of uplift effort to supplant the surface salve of miscellaneous charity. The News trusts the directors of the Chamber of Commerce will take the time at the earliest moment to settle this pressing question.

**SILENCE.**  
(With apologies to John Spalding.)

Inaudible move day and night  
And noiseless grows the flower;  
Silent are pulsing wings of light  
And voiceless fleets the hour.

The moon utters no word when she  
Walks through the heavens bare;  
The stars forever silent flee,  
And songless gleam through air.

Rapt adoration has no tongue;  
No word has holiest prayer;

The loftiest mountain peaks among  
Is stillness everywhere.

It would be fine for you and me,  
Our own souls we could woo;

A heavenly place this earth would be  
If Bryan were silent, too.

**What Is Happening in Germany? Question World Wide  
With Big Retreat and Socialistic Utterances "Leaking"****Germans Thru Censored  
Dispatches Tell of  
Somme Retreat**

By Associated Press.

Berlin, March 18.—(By wireless to  
the Associated Press from a staff cor-  
respondent, via Tuckerton, N. J., March  
20.)—The German evacuation of Ba-  
paume, Roize, Noyen and Ronne is  
but a part of a greater strategic under-  
taking which promises to revolutionize  
warfare on the entire western front and  
constitute one of the most decisive  
moves in the war.

Just as a month ago, the Germans  
evacuated an important sector on the  
Ancre, but kept the fact secret for a  
week while the British bombarded the  
empty trenches, so today's report  
shows the most important development  
of 1917 on any front. The sector  
including the evacuated cities virtually  
covers the great Somme battle front.  
Reports from this section of the front  
tell of effective work of destruc-  
tion carried out before the occupied  
land was given back to the French  
and the British so that it will avail  
them nothing as captured soil, accord-  
ing to views expressed here.

**Would End Trench Warfare.**

"With the fronts as long as they are  
in this war and with the enormous  
amount of enemy territory held by our  
troops," said a higher German military  
authority today, "there is no particular  
military significance attached to any  
special section of the enemy territory.  
Therefore we can give up a portion of  
the western front, secure our troops  
that freedom of movement needed and  
end trench warfare. That is what is  
now really amounts to. We are now  
getting the enemy out of their trenches."

The giving up of this portion of our front  
puts an end to all their finely laid  
spring offensive plans. Ever since  
November hundreds of thousands of  
men have been at work building  
trenches, munitions depots, railroads  
and cable lines to prepare for the big-  
gest spring offensive of the war. Now  
one blow all this is gone for nothing.  
In the face of our withdrawal  
all this is useless. Four months' work  
of millions upon millions of dollars in  
value has been rendered valueless  
while more important still, the enemy  
plans are likewise of no worth. They  
must make entirely new ones to cope  
with the new situation. This is a  
difficult matter entailing weeks, yes,  
months of work and requiring an enormous  
quantity of new observation.

# WACO GUARD SAYS TROOPS COMING TO WACO BY SATURDAY

B. R. MASON RECEIVES LETTER FROM SON, FIRST INFANTRY SERGEANT, CAMP SCURRY.

B. R. Mason, 1734 Franklin street, yesterday received the following letter from his son, H. M. Mason, first sergeant, company G, second Texas infantry, at Camp Scurry, Texas, indicating that work of razing barracks was in rapid progress anticipating an early return home:

Camp Scurry, Tex., March 14, 1917.

Dear Father:

I don't think I've ever been so busy in my life. This job of mustering out reaches gigantic proportions. We are keeping two typewriters busy, here in the office, from morning until late at night. And the paper work amounts to only half. Property has to be checked from the men, turned in, then the total checked by United States and state mustering officers, shortage accounted for and overcharge against our property account. We came out with only about two thousand dollars against our property account, but we're coming in with about ten thousand. This property has to be checked and reissued and recharged. Descriptive lists of every man have to be completed, stating everything that has happened to him since the call. Pay rolls and musters rolls have to be made out and there is a world of statistical reports to make. All reports for the past year must be checked and rosters agreed. Worn out property must be surveyed and destroyed; we aren't allowed to keep anything that is not in first class condition. Physical examinations have been completed and N. C. O. warrants (our diplomas) have been issued. The last thing to be done will be to pack our surplus equipment, supply and commissary stores, strike our tents, load trucks for the two miles and a half to the railroad yards and entrain.

We left, almost a year ago, a half-organized, as a whole-untrained "bunch" of men and boys, of all creeds, classes and dispositions, and in all stages of health. We are coming back a perfectly organized, completely equipped, trained company of infantry. Probably different creeds still, but with a new and different one with it—a soldier's creed, but all of the same class and all in perfect health.

Whether Waco will be glad to see these two companies get back or not I don't know. But I hardly think that any of us care. We are satisfied with what we have done and want, only, to get back home again. There isn't a man, I don't think, who wouldn't gladly take the field tomorrow for active service, should the occasion demand. But, without an exception, we think that we have had enough training. And we have a right to think it. If the regular army is in better condition than we are I fail to see where. Only yesterday a first sergeant, R. A., said that he would be ashamed to bring his company out in front of one of ours for drill. The regular army taught us many things at first but we have learned all that they taught us and more, and we can and have taught them a thing or two about their business. Why shouldn't we be ready to return?

Sorry I haven't time to write an extended letter but I haven't had time to think good English for the past two weeks, much less write it. But the result will be well worth all the time, work and trouble. We are to go through the actual mustering out process Friday and should swing into Austin street some time Saturday morning.

Set the table for three Saturday night, please.

SERGEANT H. M. MASON.

The opinion at our house is that we are living a shade better than usual, because we have no repeated menus and the food is scientifically prepared as far as our knowledge goes.

## AUTOMOBILE SPEED LIMITS ARE SET BY AUSTIN SOLONS

### TWENTY-FIVE MILES IS LIMIT ON HIGHWAYS—TEN MILES IN BUSINESS DISTRICTS.

By Associated Press.

Austin, March 20.—The house today by a vote of 21 to 9 passed finally the house bill by Carlock revising the speed laws for automobiles in the state. The bill limits the speed of automobiles on highways to twenty-five miles, eighteen miles in cities and residences and to fifteen miles in business districts of smaller cities and towns, while at grade crossings the drivers of motor cars must slow down to six miles. The senate amendments, according to Mr. Carlock, will be concurred in in the house.

The senate also passed finally the house bill providing that in school districts of 150 schoolhouses or over, treasurers for the school funds must be selected whether the district be an incorporated city or an incorporation for school purposes only; also passed the house bill validating the sale of school lands which have been forfeited by a decision of the supreme court on account of the failure of the land commission to enter the award upon his books.

## GIANTS TAKE ONE FROM FT. WORTH BY SCORE 8 TO 6

TAKE WHIRLWIND START IN THE FIRST FRAME AND COME OUT TWO AHEAD.

Special to the News.

Marlin, March 20.—The Giants made whirlwind start in the first frame of their game and easily defeated the Fort Worth Panthers by a score of 8 to 6. In the first inning McGraw's big stick artists handled Applegate for six safeties, scoring as many runs, and in the second frame made another count.

The Panther tribe were on the defensive until the sixth frame, when Stowe cleared the fence for a home run. In the seventh another score was made and in the eighth Adams came up with two on bases and clouted a circuit drive and in the ninth the visitors scored again.

The McGraw men started scoring in the first, when with one out and Burns on first, Davey Robertson hit a home run. Zimmerman singled and stole second and scored on Fletcher's single. Kauff singled and the fifth consecutive hit was a home run by Holke.

Had Gers and Leverette, who each worked three frames for the Panthers, appeared on the mound earlier in the game, the story might have been different. Gers held the Giants to one counter, which was a home run by Kauff in the fifth, and Leverette did not allow a score.

The big lead of the Giants in spite of the brilliant finish of the Panthers proved too great for them. The batting order:

New York: Burns, left field; Herzog, second base; Robertson, right field; Zimmerman, third base; Wagner, third base; Fletcher, shortstop; Kilduff, shortstop; Kauff, center field; Holke, first base; McCarty, Rariden, catchers; Salles and Tesreau, pitchers. Thorpe batted for Sallee in the fourth. For Worth: Stowe, shortstop; Kercher, second base; Critchlow, left field; Adams, first base; Williams, right field; Bailey, center field; Thompson, third base; Bernsen, catcher; Applegate, Geist and Leverette, pitchers. Umpire: Brennan.

Made in all colors in just the shape and style you desire.

Kilomis in Challenge to Taylor's Pet Brown

"Pet" Brown has been challenged by John Kilomis for a wrestling bout, Kilomis agreeing to meet Brown in April. Brown defeated Kilomis in 1914, but Kilomis claims that he is in the best condition ever, and aching for another try with the favorite, "Pet." In the middleweight class Kilomis ranks high, and a match between him and Brown would be an event of unusual drawing power. It is expected that Manager Swoboda will make known his intentions regarding the challenge at an early date.

## TAKES NAVS ELEVEN INNINGS TO DEFEAT BAYLOR BEAR NINE

AT THAT, ONE OF THE BEARS WAS BEST MAN ON SIDE OF LEAGUERS.

By "Pop" Boone.

**B**Y GUM! as my old friend Hank Adams used to say. Our nine came darn near getting beat yesterday by that bunch or rabbahers from Baylor U. Yes, sir, took the leaguers eleven innings to decide the battle—and if it hadn't been for Fielder—

This Fielder boy is a pretty fair shortstop—in a football game. He is the young gentleman who used to stop up holes in the Baylor Bear line last winter. "Bubs" Mosley says he's a good baseball shortstop, too, but he'll have one sweet time convincing the home boys of that fact after yesterday's game.

Fielder sure did have a bad day. He started bootin' 'em in the first inning and he never ceased bootin' 'em till the finish. He never got hold of but one handle in seven chances—and this time the only reason he didn't throw the ball away was because our old side-kick Louie Wiebusch happened to spear a short-hop. Louie by the way, poled out a double that scored two runs for the Varsity boys in the third inning. Louie wrote the baseball dope for the Morning News last year, so we were right proud of him.

That game just goes to show what may be expected of baseball at any time. During the four innings that Farrington worked for Baylor the Nays failed to score. But Duncan and Ellis, behind not any too good support, were unable to hold the four-run lead acquired in the first four frames.

Blunk started pitching for the league club, and was bowling along nicely until he forgot himself and gave Miller a fast one. Miller had his spikes set for the offering and slammed the ball back at Blunk like a bullet. The impact against the filer's first or curving digit was such as to sounds like a college alibi, doesn't it? Anyhow, Blunk let in a couple of runs.

Then Head went to the middle and he also allowed a couple.

Teague and Russ kept out of trouble. The game finally was won by the Nays off Ellis, who with a man on second in the eleventh, handled a slow roller in fine shape—and then threw it over the grandstand, or almost over the grandstand.

The score follows:

Baylor—  
AB. R. H. O. A. E.

Weibusch, 1b ..... 6 0 1 5 2 1

Wilson, lf ..... 4 0 1 2 1 0

## FARMER SAYS HIS WIFE SUFFERED FOR NEARLY TEN YEARS

MRS. MALONEY FOUND NO RELIEF FROM RHEUMATISM UNTIL SHE TOOK TANLAC—MUSCLES OF FINGERS WOULD FORM INTO KNOTS.

"My wife suffered with rheumatism for ten years and Tanlac was the only medicine she ever found that gave her any relief," said W. H. Maloney, a well known farmer living on Waco R. F. D. route No. 5, a few days ago when in Morrison's Old Corner Drug Store.

"Yes," continued Mr. Maloney, "my wife had rheumatism in her fingers so bad that it would draw the muscles up in knots. The rheumatism also affected her in her arms, limbs and shoulders and she suffered terribly nearly all the time. Her muscles ached so bad, she would just have awful pains every time she would move. On top of all this she had stomach trouble. Her appetite was mighty poor and she didn't seem to digest hardly anything she ate. She couldn't sleep at all well of nights and she would be tired and worn out all day long. She seemed so weak and fagged all the time that I suppose you might say her entire system was in a run-down condition. She tried all kinds of medicines, but nothing seemed to help her enough to notice."

"Finally, after reading some of the statements published in the papers, where a lot of people said they had been relieved of troubles very much like my wife's by using Tanlac, she decided to try it, hoping that it would at least relieve her stomach trouble so she could eat enough food to keep her going."

"Well, after the first few doses her stomach eased up and her appetite improved. Then she kept on getting better and better—so fast that it actually surprised me. Those knots on her fingers are just gone now and she is just simply better off in every way. She sleeps well and she doesn't have that tired feeling all day long and her complexion has cleared up. We are both just delighted with what Tanlac has done. It sure is everything that's claimed for it and more, too, to my way of thinking. Any medicine that could help my wife in the bad fits she was in gets a good word from me whenever I get a chance to give it."

Tanlac is sold in Waco by Morrison's Old Corner Drug Store, under the personal direction of a special Tanlac representative.—Advertisement.

## Perhaps It's Here

## STEEL EQUIPMENT ON I. & G. N. LINE

ATTERS are reaching a point in reckless auto driving on the part of some persons where individuals who are ruthlessly run down will have to take matters in their own hands. Legislation on the subject has failed of enforcement until the patience of the public is exhausted, leading inevitably to individual action in extreme cases. Too many people are reckless and are not apprehended, as officers can't be everywhere. I am very much afraid there are going to be instances of individual action which will be shocking in their consequences, but it seems that nothing else is going to get results."

This was the declaration yesterday of Dee Cook, who said that while an occasional accident happens even where all parties are careful, yet he estimated that a very large majority of the injuries came through reckless handling of machines.

Hotels, boarding houses, and even private homes, are responding to the call for more room for the Woodmen of the World circle next week. It is expected that the 1,500 additional places will have been secured by the last of this week. Waco will have plenty of places for all, it is believed, though this will be the biggest gathering of the year numerically.

Corn planting has been rushed again this week. Every effort is being made by farmers to get the corn into the ground, in the belief that the grain will have sufficient moisture from this time on to germinate and suitable growth.

General Manager W. E. Williams of the Katy railroad, accompanied by General Freight Agent F. H. Abbe, was in Waco yesterday afternoon from Dallas. They were on their private car, and stayed here several hours. They were on a trip of inspection.

A meeting will begin Sunday night at the Second Presbyterian church, the expectation being that it will continue in a series for the week ending April 1. The pastor, Rev. J. J. Grier, will conduct the services.

Plans have been made and bids will be opened today on a beautiful new two-story residence for Mrs. J. W. Grand, to be built on Sanger avenue between Twenty-seventh and Twenty-eighth streets. Plans were made by Birch D. Eastwood. The building will have eight rooms, will be of stucco effect, and is well arranged.
